index = 1 
reset 

index 

```
class Solution {  
    public int lengthOfLastWord(String s) {  
        int count = 1;  
        int index = 1;  
        int spaceCount = 0;  
  
        if(s.length() < 1){  
            return 0;  
        }  
  
        while(index < s.length()){  
            if(s.charAt(index - 1) == ' ' && s.charAt(index) != ' '){  
                count = 0;  
            }  
        }  
    }  
}
```

```
        if(s.charAt(index) != ' '){
            count++;
        }

        index++;
    }

    return count;
}
}
```
