-
- The diagram illustrates the structure of a network packet, likely a TCP segment, with the following components and lengths:
- Header:** Consists of several fields:
 - Source Port: 2 bytes
 - Destination Port: 2 bytes
 - Sequence Number: 4 bytes
 - Offset: 2 bytes
 - Reserved: 6 bits
 - Flags: 2 bytes
 - Window Size: 2 bytes
 - Checksum: 2 bytes
 - Urgent Pointer: 2 bytes
 - Options:** A variable-length field, shown as 4 bytes in the diagram.
 - Payload:** The data being transmitted, shown as 100 bytes in the diagram.
 - Trailer:** A variable-length field, shown as 4 bytes in the diagram.
- The total length of the packet is 110 bytes (2 + 2 + 4 + 2 + 6 + 2 + 2 + 2 + 2 + 4 + 100 + 4).
